

TREKK  SOFT
FOR DMOs

EXPERIENCES DRIVE DECISION TO VISIT

"Arguably the most significant, systemic trend in worldwide tourism today is the demand for "experiential travel," typically meant to convey the idea of more immersive, local, authentic, adventurous and/or active travel."

(Peak + Skift The Rise of Experiential Travel, 2014.)

ACTIVITIES PLATFORM FOR DESTINATION MANAGERS

TrekSoft is your software platform that allows you to sell your tour and activity suppliers in real time on your destination management website, via hotel partners and online travel agents.

Who we work with:

At home

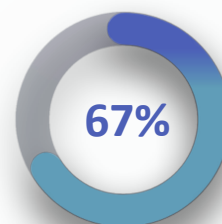

In transit

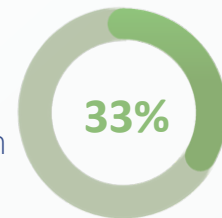

In destination

PUT YOUR VISITORS' IN THE DRIVING SEAT

- Latest availability;
- Eliminates Stress;
- More than online presence:

booked
in destination

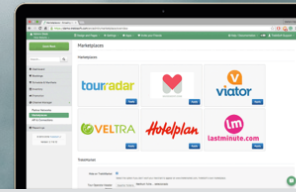

booked
in advance

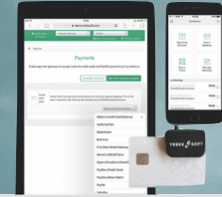

BUILT FROM THE GROUND UP

TrekSoft is not just a CMS it empowers your local suppliers with the latest technology to compare with your largest hotel partner for a fraction of the cost.

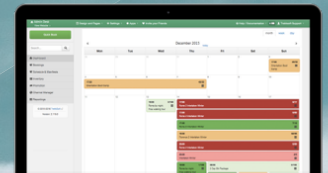

Our product connects you directly to your suppliers' reservation system, allowing you to display live availability to your visitors at any point of their journey.
